Answer All Questions. All Questions Carry Equal Marks. Time: 20 Min. Marks: 20.

I Choose the correct alternative:

1. In the international level the recommended standards for the operation and management of civil use airports are provided by []
 a) IATA b) ICAO c) FAA d) NASP

2. Those airports that accommodating greater than 0.05% but less than 0.25% of annual enplanements are []
 a) Small hubs b) Medium hubs c) Large hubs d) Non hubs

3. The management function that attempts to create good will for an organization and its products and other with future welfare is []
 a) Press relations b) Airport management c) Public relations d) None of the above

4. Runway, Exit runway, Holding area, Holding bay and taxiway system comes under []
 a) Land side b) Airspace c) Airside d) Terminal

5. The basic of air traffic control can be done by []
 a) VFR b) IFR c) Both A and B d) Only A

6. _____ Airspace is known as Terminal Radar Service, which fly under the control of ATC. []
 a) Class D b) Class B c) Class C d) Class G

7. The easiest to achieve from an aircraft maneuvering stand point, which requires the large amount of space for aircraft is said to be []
 a) Parallel parking b) Remote parking c) Angled Nose-out-Nose-in parking
 d) All the above

8. The passengers entering the terminal from the ground access system through the access/processing interface segment is []
 a) Arriving passengers b) Transferring passengers c) Departing passengers
 d) Domestic passengers

9. Role of ATSCC is []
 a) Operational future control in current ATC. b) Surveillance of enhancements of airport.
 c) Development in air traffic control. d) Manage flow of air traffic.

10. VOR's operate within _____ frequency band and have a power output to provide coverage with in their assigned operational service. []
 a) 190 to 535 kilo hertz b) 400 to 1020 hertz c) 108.0 to 117.95 MHz d) 500 feet

II Fill in the blanks

11. _____ and _____ are the main components of an airport
12. Term _____ is used to describe the number of passengers that board an aircraft at an airport
13. Major function of taxiways is to provide _____ in expeditious manner
14. In airport management organization chart _____ is head for overall day-to-day operation of airport.
15. _____ Taxiways are located at areas of congestion at busy airports
16. _____ area is comprised of passenger and cargo terminal buildings, hangers and its service area and other passenger services and their parking in an airport system
17. _____ and _____ systems are divided into two categories which are components of airport terminal area.
18. _____ are in use today to air A/C both to fly between locations and for landing in poor weather conditions.
19. To implement emergency and to investigate security verifications congress drafted the _____ act of 2001
20. Class C is known as _____
